

ENVIRONMENTAL POLICY SUMMARY

**Logistics.
Possible.**

Navigators Shipping and Logistica LLC (NSAL), is one of the fastest growing Freight forwarding and Logistics companies in the UAE. Our extensive global network and our collaborative efforts in boosting the global trade have made us the most preferred logistics partner in the regions, where we operate.

Our Environmental Policy

At Navigators Shipping and Logistica LLC (NSAL), we accept our environmental responsibilities and recognize our obligation to reduce the impact of business activities on the environment. We shall strive to assimilate sustainable environmental procedures across the Group's management and governance systems to minimize environmental impacts and accomplish a flagship position in environmental conservation across the globe.

As part of our aim in creating a "safer world" through "responsible logistics" in the international freight and logistics management spectrum, Navigators constantly invest in services and solutions to add value to our customers' global supply chains. This goal will be improved by the enhancement of the environmental performance throughout our network.

Our Ethical Principals

- Always consider environmental concerns and impacts into our decision making and activities
- Promote the use of clean, green and recycled materials and encourage waste avoidance in line with globally disseminated technologies and practices.
- Complying with the requirements of applicable environmental legislation and other requirements as advised by the authorities.
- Assessing the environmental effects of business operations and preventing pollution for the protection of the environment
- Comply with and encourage all our clients and network partners to use, low carbon logistics wherever possible.
- Ensure company vehicles being tested and maintained to minimize CO2 emission
- Train and educate our employees about environmental issues that may affect this world order
- To encourage our employees in practicing responsible purchase and minimize waste disposal
- We shall strive to minimize noise, reduce the use of natural resources in the form of energy and water and any raw materials as far as possible and practical
- As part of the CSR programme, we ensure, associating with nature protection and conservation forums and contribute our share in the activities
- Establish a system through which all the guidelines are strictly followed, monitored, and measured on a regular basis, and publish a progress report annually
- This policy shall be displayed in all Navigators offices and encourage our staff members to comprehend and comply with our vision mentioned herein

The guidelines mentioned within the policy shall be under the ownership of the Management of Navigators Shipping and Logistica LLC (NSAL), and shall be reviewed, improved, and updated as and when it is required.
