## PARTNERING IN IMPROVING THE COUNTRY'S INFRASTRUCTURE

**NAVIGATORS SUCCESSFULLY EXECUTE  
THE DEWA TRANSFORMER MOVEMENT  
AND INSTALLATION.**

*Dubai, Jan 2023:* The projects team at Navigators are constantly striving to support the Government authorities for improving the civil facilities provided to its people. Navigators teamed up with DEWA and provided its professional services in importing Rectifier transformers and its accessories from Europe, to be installed at the DEWA sub-station inside the client facilities.

In a carefully executed projects operation, 2 rectifier transformers, each weighing 168.3 tons and the rectifier enclosure along with the other machinery parts and accessories were imported from Europe. The Navigators projects team meticulously managed the end-to-end scope of work for successfully completing the job. Customs clearance was done, and the cargo was moved to the storage facilities inside Jebel Ali freezone.

The transformers were moved in special equipment with prior permission in place for the movement. A detailed route survey was conducted by the team and analyzed the rush hours and traffic conditions, for a flawless execution of the job.

At the client site, while the transformers were installed, the jacking and skidding of the main units were also arranged by the Navigators Projects team.

Our projects team has always been keen on partnering with the Government authorities for facilities improvement, and as a practice, execute jobs with 100% client satisfaction in return. In the previous years as well, our team has associated in Nation building projects like end-to-end projects management in installing infrastructural facilities throughout the country. One amongst is the ongoing prestigious Etihad rail project, for which we have been honored by the Logistics Middle East last year.

## CONNECTING GCC WITH EUROPE THROUGH JEBEL ALI

NAVIGATORS PROVED THE PROWESS OF JEBEL ALI AS THE TRANSIT HUB FOR GCC.

*Dubai, Jan 2023:* With handling yet another momentous cargo movement, Navigators Projects team has projected the capabilities of the Jebel Ali port as an unmatched transit hub of GCC. For the ongoing NEOM project in the Kingdom of Saudi Arabia, the projects

team at Navigators moved drilling machinery parts with utmost precision and care. The equipment parts that were imported from Germany, one of the major industrial equipment supplying countries in Europe, were transited through Jebel Ali for its onward overland journey to the projects site in Saudi.

The documents support team assisting the projects department, managed the import clearance of the huge drilling equipment parts at the Jebel Ali port as per the planned timeline, which were further loaded on to the trailers with special equipment assistance. The projects team took considerable care for meticulously managing the loading of the equipment parts.

Neom is a planned smart city in Tabuk Province in northwestern Saudi Arabia. The site is north of the Red Sea, east of Egypt across the Gulf of Aqaba, and south of Jordan. The city's plans include multiple regions, including a floating industrial complex, global trade hub, tourist resorts, and a linear city - all powered exclusively by renewable energy sources.

"Being an ongoing project, all timelines need to be fulfilled in every way possible. We are happy that our team walked that extra mile in fulfilling the commitment of the company. By becoming a part of this prestigious project our team has once again proved our indispensable position for the overall developmental activities happening around GCC." Mentioned the Navigators Projects team leader.

## TATA-OWNED AIR INDIA TO ACQUIRE 250 AIRBUS AIRCRAFT

The Tata Group-owned Air India has announced its commitment to order 250 Airbus aircraft to boost its domestic and international operations. The commitment includes 140 A320neo and 70 A321neo single-aisle aircraft as well as 34 A350-1000 and six A350-900 wide-body jets that will mark a new era for the country as the all-new, long-range aircraft celebrates its debut in the Indian market.

The order aims to both modernize and expand the airline's fleet with the objective of creating a larger and premium full-service carrier that will cater to the growing travel demand in the region. Deliveries are set to commence with the first A350-900 arriving by late-2023.
