## BOAT LASHING BY NAVIGATORS

**NG News desk, Dubai:** The Industrial packing, lashing and crating department at Navigators undertook a very interesting job recently. The job which demanded close coordination was to successfully execute lashing and securing of an aluminium survey boat which was perfectly done by our team. The total weight of the boat was 4250 Kgs, and the lashing work was done on a timely manner for ensuring smooth cargo movement.

Our expert team provides lashing and securing services to break bulk cargo and other expensive and heavy items like Boats, luxury Yachts, vehicles on shipping containers, flat racks, and barges and vessels. The purpose of lashing services is to prevent the cargo from shifting, sliding or falling off especially during sea transportation.

We use a wide range of heavy-duty lashing materials for proper lashing of cargo. Our materials include steel wire, lashing extension handle, ratchet tie down, tension lever, lashing chain, turnbuckle, steel wire rope, wire clip for wire ropes, car lashing, D ring, lashing shackle, load binder, load binder chain and wheel chocking.

### About Navigators Shipping and Logistica LLC

Navigators Shipping and Logistica LLC is one of the fastest growing Freight forwarding and Logistics companies in the UAE. A company having completed 13 years in the global freight forwarding and logistics vertical, wishes to express their gratitude to all the stake holders and network associates for the achievement. The professional ethos at NSAL has attracted people who can lead teams towards the future, through innovative and inspiring ideas, cutting edge technology solutions, invigorated spirit and strategies.

We offer services in:

NVOCC • Ocean Freight • Air Freight  
Supply Chain • Air and Sea Charter  
Overland Transportation • E-Clearance  
Turnkey Projects • Abnormal Loads

## DP WORLD NEWS

**CSR INITIATIVE AT DP WORLD**

DP World Foundation has donated Dh15 million to Al Jalila Foundation to support the development of the Hamdan bin Rashid Cancer Hospital, highlighting its commitment to corporate social responsibility and community welfare.

The contribution is part of DP World Foundation's broader efforts to support vital healthcare services and improve access to quality healthcare for cancer patients.

The allocated funds will support the development of Dubai's first integrated cancer hospital, scheduled to open in 2026. The advanced healthcare facility, which is being established in collaboration with the Al Jalila Foundation, will feature 50 clinics, 30 research areas, 60 infusion rooms, and 116 inpatient beds spread across a sprawling 56,000 square-metre campus.

His Excellency Nasser Abdulla Al Neyadi, Chief Officer Group Security, Government Relations & Public Affairs (GRPA), and DP World Foundation, presented the contribution during a visit to the Al Jalila Foundation, including the Mohammed Bin Rashid Biomedical Research Centre, where he met with key healthcare officials and stakeholders.

**AIR INDIA TO PROPEL MAJOR EXPANSION IN AIR CARGO OPERATIONS**

Air India, India's leading global airline, has taken a significant step forward in its digital transformation journey by selecting IBS Software, a global leader in SaaS solutions for the travel industry, to revamp its air cargo operations. This strategic partnership aims to bolster Air India's ambitious growth plans and enhance its operational efficiency.

In line with Air India's commitment to digital transformation, the airline has opted for IBS Software's comprehensive iCargo solution. This platform is designed to digitize and integrate various facets of cargo management, from sales to billing, into a single, cohesive system. By leveraging the iCargo platform, Air India aims to streamline its processes and improve decision-making capabilities, ensuring a more efficient and effective cargo operation capabilities.

**NEW RAIL CONNECTION BETWEEN POLAND AND SPAIN**

GEODIS, a leading intermodal operator, has expanded its rail freight services with another fixed schedule connection. As of June 11th, the freight train between Poland and Barcelona was operable, representing the first direct rail connection between the two countries.

On the inaugural trip customers' goods in 44 containers and/or swap bodies, each capable of carrying a payload

of 26 tons set off from the freight terminal in Poland, reaching Barcelona after just three days, from where 'last mile' distribution will take place by road. Later on, that day of arrival, the train returns to Poland with imported goods from Spain. Successive trains have also a capacity of 44 units, replacing the same number of trucks that might otherwise be used.

# EMPOWERING TEAMS WITH INSIGHTFUL SESSIONS

SEMINAR ON LCL CONSOLIDATION FOR NAVIGLOBAL LINE TEAM

Training and seminars are a usual practice amongst the teams in Navigators. Trainers from across the globe were invited to take insightful sessions for our teams in previous years during various occasions.

One such insightful programme was conducted for the LCL division of Navigators, the Naviglobal line team members who attended a very interesting seminar about LCL consolidation, recently in Dubai. The seminar was conducted as a part of the regular training sessions organised by the HR division of Navigators.

The programme was led by Mr. Seshan Janik, Global Head for Consolidation at Naviglobal line. The seminar, which went deep into the intricacies of the consolidation business, was well attended by the team members.

“Seminars always provide us with vast knowledge about the present business situation and very well equip us to be prepared to face any exigencies that can happen in our job. This session was insightful for us, thanks to the management for such initiatives.” Commented one Naviglobal member.

Seshan, an accomplished professional in the freight forwarding industry, carries with him a wealth of experience working with prominent brands in the Middle East and Africa, before joining Naviglobal line. The seminar proved to be a memorable occasion for the Naviglobal members.
