Genoa to Laem Chabang

Navigator successfully handles transshipment cargo despite Challenges

"Let me congratulate for your wonderful job. You did the impossible. We are really impressed by your pure dedication to make things happen! Well done!!!" commented the client.

Projects team at Navigators, successfully managed the transshipment of a Crawler crane that arrived at Jebel Ali. The cargo was a 66-ton heavy equipment that originated its journey in Genoa, Italy. The 137.98 cbm cargo was on its onward journey to Laem Chabang Port in Thailand.

One of the major challenges, the team faced during the handling of this cargo was the shortage of time. The vessel, which was destined to carry the load, skipped its Jebel Ali call. The Navigator team then decided to book another vessel which was due for berthing just 4 hours ahead from client approval time. The team displayed high standards of professionalism in managing the available time in the most resourceful manner and successfully loaded the cargo on to the vessel as decided. One 100-ton heavy load bed was used to transport the cargo for its loading.

Jebel Ali being a gateway port operated by DP world, is an ideal transshipment hub and enables trade throughout the Middle East region and beyond, connecting ports across the world. It ranks among the top 10 container ports of the world.

Onam celebrations at Navigators

The festival of Onam was celebrated in a grand way at Navigators Shipping and Logistica offices in the Middle East. As part of the festivities, the floral carpet, known as 'Poookkalam', was made from the gathered blossoms with several varieties of flowers creating an intricate design. The staff wearing traditional Kerala attire enjoyed a sumptuous "sadhya" (feast in plantain leaf) consisting of more than 25 vegetarian dishes. Onam greetings were sent across to all agents and stakeholders of the company, wishing them good fortune

Logistics.
Possible.
